ADDENDUM NO. 3

**Non-Potable Storage Facility
CIP Project No. 592-59198**

NOTICE TO BIDDERS:

The following clarifications, amendments, additions and/or deletions as set forth herein shall apply to the Contract Documents for above referenced project and be made a part thereof and shall be subject to all the requirements thereof as though originally specified and/or shown. Bidders shall assure themselves that all addendum changes have been incorporated into their proposal.

A. Amendments

1. Section 40 90 00, Paragraph 1.5 Quality Assurance, E. is amended as follows: "E. The PCSI shall be Tesco Controls, Inc., Sacramento CA (916-395-8800).

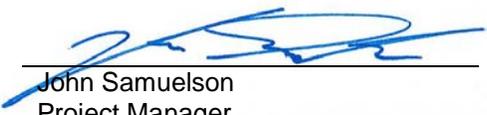

Contract Code, Section 3400(c), allows for public agencies to sole source "a particular material, product, thing, or service" if it meets certain criteria. For the Non-Potable Storage Facility project, which is part of the Wastewater Treatment Plant, the City finds that it meets the requirements to sole source Tesco Controls, Inc. for Process Control System Integrator due to criteria 2: "In order to match other products in use on a particular public improvement either completed or in the course of completion".

B. Clarifications

2. Further clarification is given to Item 28 in Addendum No. 2 dated March 29, 2018 regarding Item 1 under Environmental Mitigation and Reporting Program of Part E, Special Conditions of the Bid Document. The contractor is required to hire the certified biologist to perform all pre-construction and monitoring surveys and provide all required awareness training as specified in the Mitigation Measures and Monitoring and Reporting Requirements found in Part G, Appendix A. Since the scope of the monitoring surveys will not be known until after the pre-construction survey, the price for hiring a qualified biologist in the bid should only include the cost of the pre-construction survey and providing all required awareness training. The City will negotiate a change order with the Contractor if/when the monitoring surveys are needed and the scope has been defined.

All bidders shall acknowledge receipt and acceptance of Addendums in the space provided on the Bid Proposal, page 9, of the Contract Documents.
