## ADDENDUM NO. 1

### Request for Proposals - Lighting Design of Basketball Court Lighting CIP Project No. 352-52453

#### NOTICE TO BIDDERS:

The following clarifications, amendments, additions and/or deletions as set forth herein shall apply to the above documents and shall be made a part thereof and shall be subject to all the requirements thereof as though originally specified and/or shown. Submitters shall assure themselves that all addendum changes have been incorporated into their proposal.

#### A. CLARIFICATIONS

1. Does the project require CEQA review, and if so, what level (e.g., Categorical Exemption, Initial Study, or Environmental Impact Report)?

*The City has not completed a formal CEQA determination. The level will be determined prior to contract approval.*

2. Has any preliminary CEQA evaluation already been completed for these improvements?

*No CEQA evaluation has been completed. The City will be completing any CEQA requirements.*

3. If CEQA is required, will the design team be responsible for supporting environmental documentation (studies, exhibits, technical input)?

*No, the City will be completing any CEQA requirements.*

4. Existing Electrical Infrastructure – are record drawings or as-built documents available for existing electrical service and site distribution at both locations?

*Yes, the City will provide all available as-built drawings for both parks.*

5. What is the capacity of the existing electrical service, and is a service upgrade anticipated?

*Per Task 2 and Task 4 of the Scope of Services, the Consultant shall evaluate the existing service infrastructure and capacity and will determine if a service upgrade is necessary.*

6. Site Survey Information – will the City provide a topographic and utility survey, or should this be included in the consultant's scope?

*Existing record drawings and any available GIS information will be provided to the Consultant. Consultant to determine the level of survey required based on site evaluation.*

7. Will the City provide AutoCAD background for the project use?

*No.*

8. Design drawing package – will the design for the (2) locations be packaged into (1) design package?

*Yes, this design and specifications will be put together as one package.*

9. Do both the parks have existing electrical service for new lighting to be connected?

*Both parks have existing electrical service and per Task 2 of the Scope of Services the Consultant shall evaluate the existing service infrastructure, capacity and potential connection points.*

10. Is the lighting a replacement or new?

*This is new lighting.*

11. Is it anticipated security lighting is needed to the adjacent playgrounds as well as the basketball courts?

*No, only needing lights for the basketball courts.*
